

Moments of *well-being* at work.

mobitec

Furniture for meeting, connecting, focusing and pausing.

Work takes *many forms.*

CHAIRS: **LEI C0110** FLORIDA NATURE - E44, **LEI C0212** Bouclé ROST - E44
TABLE: **MADS T0400** 100X220 - E44

Around a conference table, where ideas are discussed and decisions take shape. At a desk, when concentration matters. In a comfortable seating area, where a conversation can unfold more freely. Or on a counter stool over coffee, when an unexpected exchange moves something forward.

These different settings shape how people meet, focus, connect and take a break throughout the day.

We design furniture for all of them - bringing comfort, warmth and character into the places where working life happens.

Belgian by origin.
European by craft.
Personal by design.

Mobitec is a Belgian family company founded in 1990 in Eupen. We design chairs, tables and upholstered seating for the way people actually use a space: with comfort, character and room for personal choice.

Designed in Belgium and crafted in our own European production sites, every piece is made to order. For architects, dealers and project teams, that means more freedom to specify materials and finishes, work with customer-supplied fabrics, discuss special requests and count on personal support throughout the project and beyond delivery.

Discover Mobitec

Five reasons to work with *Mobitec.*

Made to order.

Furniture is produced to order, opening up a wide choice of materials, finishes and configurations as well as room to discuss project-specific requests.

Freedom to personalise.

A broad palette of upholstery, wood and metal finishes helps each piece sit naturally within the wider interior concept. Customer-supplied fabrics add another layer of choice.

Designed for well-being.

Comfort is considered alongside form and material, creating meeting, lounge and shared spaces people can use for longer without the room feeling overtly corporate.

Made in Europe. Built to last.

Produced in our own European facilities, with quality controlled from material selection to final assembly and products designed for long-term use.

Support at every step.

Personal support before, during and after the project, from specification and samples to delivery and aftercare.

NPS 68

TABLE: **DOLMEN T0510** 100×240 - E04

Different *needs.* Different *spaces.*

MEET 07-11

Bring people together for decisions, dialogue and new ideas, with comfort that lasts beyond the agenda.

CONNECT 12-16

Create flexible settings for spontaneous exchange, collaboration and the conversations between meetings.

FOCUS 17-21

Make room for concentrated work, confidential conversations and smaller moments of attention.

PAUSE 22-26

Offer welcoming places to pause, share a coffee and return with fresh energy.

Meet

COMFORT KEEPS PEOPLE PRESENT.

**Some meetings call for decisions.
Others need space to explore.
The setting should support both.**

A table that brings everyone into the conversation, connectivity within reach and seating that stays comfortable beyond the final agenda point. We bring warmth and character to meeting spaces, without compromising on the performance expected at work.

TABLE: **JAVARI T0314** 110×300 - W11 - A24

trava

COLLECTION

MEETING TABLE

The Trava table collection moves from compact meeting formats to XL conference tables for larger groups - round, square or rectangular, up to 755 cm for a table that seats up to 22 people. Solid oak or Fenix tops and built-in cable access keep power and data close, without technology taking over the room.

javari

COLLECTION

CONFERENCE TABLE

With lengths of up to 6 metres, Javari brings a strong architectural presence to larger meeting spaces. Its generous proportions create room for everyone at the table, while oak and rustic oak surfaces bring natural warmth into the setting. Integrated cable access keeps power and technology close at hand without disturbing the table's clean appearance.

POUF: **THALIA R0710** DRIES PURPLE - E44

saga

COLLECTION

CHAIR
With its generous seat and gently wraparound back, Saga brings a sense of comfort to meeting, dining and informal work settings. Soft upholstery and subtle pleats create a welcoming, cocoon-like feel, while refined curves keep the silhouette light and elegant. Available with or without armrests, the chair offers a wide choice of upholstery, colours, and wooden or metal bases, making it easy to find the right combination for different interiors.

moods 2nd generation

COLLECTION

CHAIR

Two distinct versions of the second generation of Moods bring flexibility and a coherent design language to meeting and collaborative spaces. With or without armrests, with subtle or more generous padding – each variation brings its own character and level of comfort. A wide choice of upholstery, colours, wooden and metal bases, seat heights, and fixed, swivel or castor options offers the freedom to create seating that feels right for every space.

TABLE: **LORIENT T0100** 90×180 - E04 - A15

Connect

MAKE SPACE FOR WHAT WAS NOT ON THE AGENDA.

Flexible enough to change. Inviting enough to use.

The exchange that moves a project forward is not always scheduled. It can begin around a shared table, on a mobile seat or in a setting that changes with the team. Mobitec combines strong focal pieces with modular and mobile elements, helping collaborative spaces adapt quickly while remaining warm, coherent and inviting.

bolero roll

COLLECTION

FLEXIBLE SEATING
Compact and set on castors, Bolero Roll can move easily to where an extra seat is needed. Its soft, rounded form adds comfort and colour without making an informal setting feel improvised.

Discover bolero

dolmen

COLLECTION

CONFERENCE TABLE

Dolmen gives collaborative zones a natural focal point. Its oval or asymmetrical top creates a less formal geometry for exchange, while selected versions with integrated cable access support the practical needs of project work.

Mood#91, Mood#95

Focus

CREATE CALM WITHOUT CLOSING PEOPLE OFF.

A little distance can bring greater attention.

A well-designed office also knows when to become quieter. High-backed seating and considered work tables create a sense of distance from the surrounding space - enough for focused work, a private call or a confidential conversation, without building another room. Calm becomes part of the floor plan.

CHAIR: **LOTUS C0812** GAFFARO ROSE - A21 *TABLE:* **TRAVA T1511** 100×200 - E42 - A21

trava

WORK

WORKSTATION
Trava Work brings the collection's soft-touch oak into everyday work. Available as a single 100 × 200 cm desk or as a workstation up to 540 cm long for several workstations side by side, it keeps cable routing built into the surface, with an optional privacy panel (only for desk) for more separation and an integrated cable box for power and data.

Coming soon

belong

COLLECTION

CHAIR

Designed to make people feel at ease wherever work brings them together, Belong combines generous proportions with a supportive, softly upholstered silhouette. Elastic straps in the backrest provide lasting comfort, while the opening between seat and back makes handling and cleaning easier. Fixed, swivel and tilt bases in wood or metal allow to move naturally between meeting, collaborative and focused work settings.

Pause

PAUSE IS PART OF THE WORK.

Well-being also happens between the tasks.

A coffee, a shared lunch, a few quiet minutes between meetings: pauses restore energy and often strengthen relationships. By bringing the warmth of hospitality into the workplace, Mobitec creates cafés, canteens, lounges and reception areas where people feel welcome – places to step away, come together and return with a clearer mind.

knut

COLLECTION

CHAIR

Knut's softly rounded wooden frame is as much a part of its character as the upholstered seat and backrest. The contrast between wood and upholstery can be subtle or expressive, with different colours and materials offering room for individual combinations. Available with or without armrests, Knut brings a relaxed, welcoming feel to refined cafés, canteens and shared dining spaces.

umbria

COLLECTION

TABLE
Defined by its architectural U-shaped base, Umbria gives the familiar bistro table a distinctive new expression. The central metal structure leaves generous freedom of movement around the table. A warm and durable three-layer solid wood top and a full choice of metal finishes offer design flexibility, while heights of 76, 95 and 110 cm support meetings, informal exchanges and standing conversations.

Your *space.*
Your *standards.*
Your *Mobitec.*

Combine personalisation, special requests, service and pCon in one practical, project-oriented spread.

No two organisations use a space in exactly the same way. That is why we manufacture to order and keep the conversation open. From colour and material to dimensions, connectivity and special requests, we help shape furniture around the project - not the other way round.

Made to order.

Choose the model, dimensions, base, wood, metal finish and upholstery that best fit the space and the people who will use it.

Customer-supplied fabrics.

Customer-supplied fabrics account for 40% of the upholstery materials processed for our Contract projects – giving designers greater freedom to align furniture with the wider interior concept.

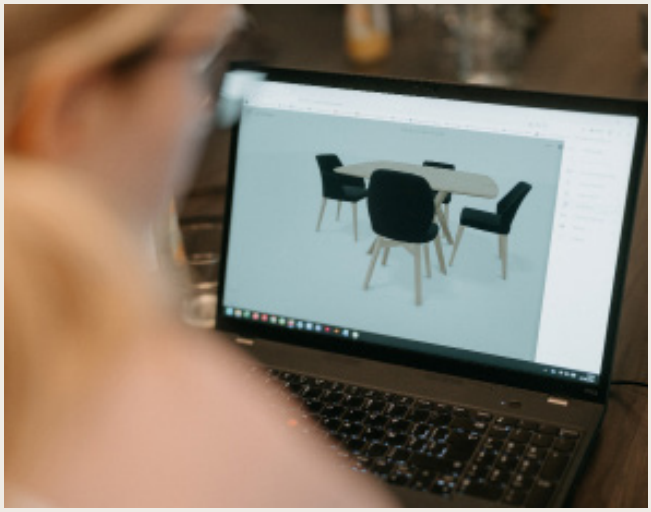

Open to special requests.

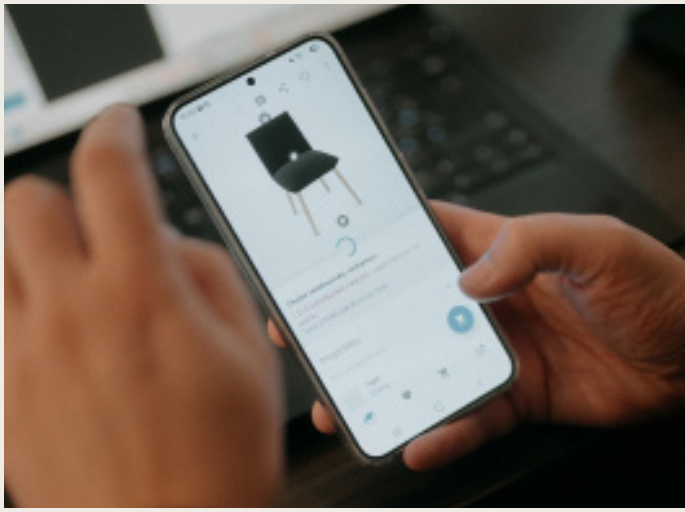

Because we operate our own production facilities, we can assess project-specific adaptations and special requests directly with the teams who make the furniture.

Monochrome Collection.

Woods, metals and upholstery materials are coordinated within clear colour worlds, making it easier to create interiors that feel coherent from the first sample to the finished space.

Explore Mobitec on pCon

Bring your next project to life.

Progress, not perfection.

Well-being *that lasts.*

For Mobitec, sustainability starts with concrete choices: how a product is designed, where materials come from, how close the supply chain remains and how furniture can be cared for over time. We measure progress against defined targets and report openly on what has changed and what still needs to improve.

Discover our sustainability report.

100% ECO-DESIGNED PRODUCTS

For the first time, all new products launched in the fiscal year met at least three criteria of Mobitec's internal eco-design grid (e.g. transport, packaging, repairability, end of life).

70.7% CERTIFIED WOOD

70.7% of the wood we purchased in financial year 2024 was certified. Mobitec is FSC® certified (FSC® C222874).*
